

# IT USER SUPPORT TECHNICIAN

## Technical Diploma Program Code: 30-154-5 Total Credits: 24

The IT User Support Technician program teaches the skills necessary to support computer users and their computers. Students will be able to manage, configure, and troubleshoot common computer hardware and software issues, configure and troubleshoot network access, and develop customer service skills. This program will cover the fundamentals of networking, security, hardware, and troubleshooting. Students will get hands-on experience with common network hardware, security tools, and common operating systems. They will also be immersed in a variety of activities including building a network from scratch, lock picking, rebuilding a desktop computer, learning scripting techniques, and interactive labs with server and client operating systems.

## PROGRAM OUTCOMES

Employers will expect you, as an IT User Support Technician graduate, to be able to:

- Support and maintain computer and mobile hardware.
- Support and maintain computer operating systems.
- Manage computer network connected devices.
- Demonstrate customer service skills as an IT professional.

## TECHNICAL SKILLS ATTAINMENT

The Wisconsin Technical College System (WTCS) has implemented a requirement that all technical colleges measure program outcomes attained by students. This requirement is called Technical Skills Attainment (TSA). The main objective of TSA is to ensure graduates have the technical skills needed by employers. Students are notified of TSA reporting in their final few courses of the program.

## GRADUATION REQUIREMENT

The GPS for Student Success course is required for all Mid-State program students and is recommended to be completed before obtaining 12 credits. (Not counted in the total credit value for this program.) Some students are exempt from this requirement. Please see your program advisor for more information.

### GPS for Student Success

**10890102 ..... 1 credit**  
 Integrate necessary skills for student success by developing an academic plan, identifying interpersonal attributes for success, adopting efficient and effective learning strategies, and utilizing Mid-State resources, policies, and processes. This course is recommended to be completed prior to obtaining 12 credits and is a graduation requirement unless you receive an exemption from your program advisor.

## ADDITIONAL COURSES AS NEEDED

The following courses may be recommended or required if the student does not achieve minimum Accuplacer scores.

### College Reading and Writing 1

**10831104 ..... 3 credits**  
 Provides learners with opportunities to develop and expand reading and writing skills to prepare for college-level academic work. Students will employ critical reading strategies to improve comprehension, analysis, and retention of texts. Students will apply the writing process to produce well-developed, coherent, and unified written work.

### Pre-Algebra

**10834109 ..... 3 credits**  
 Provides an introduction to algebra. Includes operations on real numbers, solving linear equations, percent and proportion, and an introduction to polynomials and statistics. Prepares students for elementary algebra and subsequent algebra-related courses.

# COURSE DESCRIPTIONS

## Information Security 1

**10151110 .....3 credits**

Introduces students to the fundamentals of information security. Topics include security terms and concepts, risk assessment, cryptography, monitoring and auditing, attacks and techniques, and the legal and ethical issues associated with information security. This course aligns with the CompTIA Security+ certificate. Students can take this certification exam after completing this course.

*Corequisite: Networking 1 10150110*

## IT Essentials

**10154102 .....3 credits**

An introduction course that aligns with the CompTIA A+ certification. This class is designed to teach students how to build, configure, secure, network, and troubleshoot PCs.

## Linux

**10151105 .....3 credits**

Covers introductory Linux topics, including operating system basics, system installation, file system management, file system administration, and basic commands. This course aligns with the CompTIA Linux+ certificate. Students can take this certification exam after completing this course.

## Network Server Scripting

**10150165 .....3 credits**

Provides best practices and techniques in Linux and Windows shell and command line scripting using PowerShell and BASH.

*Prerequisite: IT Essentials 10154102; Corequisites: Server Administration-Beginning 10150120 and Intro to Programming 10152101 or Networking 1 10150110*

## Networking I

**10150110 .....3 credits**

Introduces the architecture, structure, functions, components, and models of the Internet and other computer networks. The principles and structure of IP addressing and the fundamentals of Ethernet concepts, media, and operations are introduced to provide a foundation for the curriculum. By the end of the course, participants will be able to build simple LANs, perform basic configurations for routers and switches, and implement IP addressing schemes. This course is the first of three courses that align with CCNA certification. Covers the objectives of the first CCNA exam.

## Oral/Interpersonal Communication

**10801196 .....3 credits**
