

Great News!

You get your test scores online
with GEDWizard!

5 to 14 days after testing:

1. Go to: <https://secure.gedwizard.com>

2. Do you know your GEDWizard Account's email and password? Yes, you do!

Let's say your name is John Doe and your Social Security Number is 343-78-4895.

Your Email Address would be: john.doe.343784895@wi.non

Your Password would be: abc343784895

3. Click Logon

4. Click Your Score Report

Can't get in? Here are some common errors:

- Did you type `https://` before `secure.gedwizard.com`? `https://secure.gedwizard.com`
- Did you type a dot (.) between your first and last name, between your last name and Social Security Number, and between `wi` and `non` and the at symbol (@) between your Social Security Number and `wi`? Here's the example again:

john.doe.343784895@wi.non

Remember!

- The Writing Test takes longer to score than the other tests.
- Computers are available at public and MSTC libraries.
- Keep your mailing address up-to-date in GEDWizard.
