Policy Title: **USE OF STUDENT ACTIVITY FUNDS**

This policy has been developed in compliance with Wisconsin Technical College System Board Policy 401 which requires that revenues generated through the collection of student activity fees and student organization fund raising activities be deposited in the District’s accounts. The WTCS policy also requires that each district have appropriate operational policies to insure the disbursement of these funds in compliance with Wisconsin Statues.

**CLUB RECOGNITION AND DISTRICT RESPONSIBILITY**

All student clubs and organizations must be sanctioned by the Campus Activities & Student Senate, with the advice and consent of the Vice President, Student Services, before they will be recognized by the College. Sanctioned clubs may become eligible for an allocation of a portion of budgeted student activity fees as recommended by the Campus Activities & Student Senate and approved by the Campus Activities & Senate Advisor. All clubs will be assigned one or more club advisor(s) for guidance and consultation. The amount of the stipend awarded to club advisors is determined by Human Resources.

A separate fund for student clubs and/or organizations will be established and maintained by the college. All receipts and disbursements must be made in accordance with established district procedures. Financial status reports must be prepared and distributed to club officers, advisors, and the Student Life Coordinator no less than the end of each semester. Student club records will be audited as part of the District’s annual financial audit to include a review of internal controls and operating procedures.

**BUDGETARY RESPONSIBILITIES**

The Student Life Coordinator and Dean, Student Support will be responsible for developing an overall student activities budget. This budget will reflect the allocation of projected student activity fee collections for each campus location based on allocation formulas and procedures approved by the Executive Team. An allocation for the Campus Activities & Student Senate will be contained within this budget. Allocations of these student activity fees approved by the Campus Activities & Student Senate to other clubs will be accounted for as transfers.

Club advisors are expected to work with club officers to prepare a club budget for each year and be fiscally responsible.

Student activities and student senate expenditures funded with district monies, and student activity fees must be handled through the District’s normal budgeting and purchasing process.
