

Policy Title: INTERDISTRICT/INTERAGENCY COOPERATION

It is the intention of Mid-State Technical College to seek improved educational opportunities for students and to promote the effective and efficient use of resources through interdistrict and interagency cooperation and communication. It is the College's desire to develop partnerships that will share knowledge, improve relations and promote cooperation through the pooling of resources, resulting in increased educational networking opportunities.

Interdistrict and interagency relationships are the collaboration and cooperation among and between the Wisconsin Technical Colleges, the Wisconsin Technical College System and other private and governmental agencies.

This policy seeks to encourage interdistrict and interagency relationships that will foster the most effective and efficient use of total district resources at the local level, the regional level and statewide within the Wisconsin Technical College System.
